

# This business is:

This business recognises the impact of plastic on turtles, fish, dolphins, sharks, whales and the whole marine environment.

We have decided to take a stand. For the benefit of the oceans this business has removed single use plastic in the items it packages and dispatches unto customers. Packaging, bags, foodstuffs, or tags, all single use plastic free where the business has a direct role to do so.

Thank you for supporting us in our mission to protect this beautiful planet.
